[EASA Compliance Management and Auditing Training](#)

The last months have seen us delivering Part OPS and EASA Compliant SMS Regulatory Training for the Lithuanian CAA. In addition more than 40 different open and "In company" Training courses have been delivered in Vilnius, Hong Kong, Myanmar, Johannesburg, Athens, Sofia, Dubai and Fujairah.

Amongst the new destinations and old favourites identified for forthcoming trainings are Montenegro, Botswana, Almaty, Bucharest.

We are very pleased to provide an update regarding the developments of our online training portal – www.easaonline.com A recent UAE contract has been awarded to SAS to deliver online training to more than 250 delegates. Additional training courses are being loaded to focus on the need of our client requirements.

As usual we look forward to the opportunity to support your training and consulting needs and can usually develop in a short time frame specific courses and support packages to meet your exact specifications.

We would like to inform you regarding the following courses which are currently under development and scheduled for delivery at the beginning of July in Sofia Bulgaria:

State Safety Program (SSP) Implementation and review workshop

SSP Developing Performance Based Metrics

**SMS Performance Auditing for Regulators ICAO Annex 19 and EASA
Part OPS**

Warm Regards,
SAS Team

SAS currently offers more than 100 different regulatory and vocational training courses.

MRO MAINTENANCE SOFTWARE

Our Maintenance Software supports compliance with all EASA regulatory requirements. Implementation of an effective MRO software solution may also be the key to considerable savings within the organisation, generating efficiencies across the entire business, by facilitating a reduction in staffing costs, whilst at the same time delivering an improvement in the effectiveness of process and procedure within the maintenance environment.
