SAS Understands Aviation Training
Today training needs to be considered in the context of the organization culture, the training has to fit into an environment where there is a culture of strong leadership and motivation by example.
For new organisations or clients wishing to implement a strong and effective SMS, we are pleased to support you with the necessary background knowledge, experience and competencies to implement your SMS in the most effective way.

Q5SMS Aviation Safety Software

SAS is proud to support Q5SMS Aviation Quality & Safety Software.

Sofema Aviation Services offers Interactive WEB Based Training as an additional opportunity to receive Regulatory and Vocational Training. Supplementing its Classroom and EASAOntline Training Programs, “SASWEB” is an interactive Instructor led training delivered through conferencing software.

Why SASWEB?

SASWEB is a combination of online and interactive training programs – tilising EASAOntline together with a conference supported virtual classroom experience which allows us to support up to 50 participants to a training event.

SASWEB is very simple for the client and starts with course selection through course selection from either www.easaoonline.com or www.sassofia.com
