

Aviation Auditing in a Part 147 Environment – 2 Days

INTRODUCTION

To be a Part-147 approved organisation requires an Maintenance Training Organisation Appropriate MTOE including a documented set of procedures and a compliance matrix to show how they meet the requirements of Part-147. Organisations which can deliver an effective quality audit system and a process to follow up with all issues in an effective and practical way, grow and flourish.

This course is specifically designed to meet the needs of an Auditor working in a 147 organization, written by an Auditor with more than 25 years practical experience across a range of business areas.

The course is aimed at aviation professionals who are seeking to embrace a EASA Part 147 Auditing Role. The course delivers an in depth understanding of the background to compliance management and auditing, auditing techniques and behaviours receive an in depth and practical coverage.

The training places a clear priority on the technique of auditing within an EASA Part 147 organisation including system and process auditing together with a root cause understanding of methods to identify systemic failures as opposed to mere compliance type audit findings.
