Pre-requisites

A background in an aviation environment.

Learning Objectives

To equip the attendee with the skills and techniques required to manage and execute meaningful audit programs and audits within their respective companies. The research, planning, execution and documentation of the audit will be treated as if it were part of a genuine internal audit.

To give the attendees a number of exercises including raising their own audit plans, checklists and reports in relation to their role, using procedures and audit plans drawn from their own company. This will ensure the course is practical and relevant to each attendee.

Duration

1 day - Start at 09.00 and finish at 17.00, with appropriate refreshment breaks.
