Target groups

The course is designed for personnel who are required to manage or operate an Aviation Store or who are required to accept material into an Aviation Store. The course would also benefit Quality and Inspection personnel.

Pre-requisites

A background in an aviation environment is an advantage.

Learning Objectives

An essential element of benefit from this training is to be able to understand Federal Aviation Regulations relevant to an Aviation Store, and how to be compliant.

Other benefits provided to attendees include:

- A detailed understanding of the various processes and procedures for personnel involved in Aviation Stores management and Receipt Inspection.
- An understanding of Airworthiness and Aeronautical Parts certification.
- How to enhance your own procedures for use in Stores and Receiving Inspection areas.
- To understand the issues associated with Suspected Unapproved Parts (SUP) and how to help eliminate the safety risk SUP impose.

Duration

1 day – The training will commence at 09.00 and finish at 17:00 with appropriate refreshment breaks.
