

Integrating the organisations HF/ CRM, QMS and OHSS into the Safety Management System within the EASA Environment - Review and Best Practice Workshop - 1 Day

INTRODUCTION

How effective is your organisational Safety Management System (SMS)? Are you satisfied with the metrics? How well are you using the data which is being collected? How effective is the process of Exposure Analysis and Mitigation recommendation.

This 1 day intensive course is aimed at Business Area owners, Nominated Persons / Accountable Managers and Quality & Safety Managers. The purpose is to deliver a reset to understand the current position and to determine an appropriate action plan to deliver improved performance, leading to a safer and more cost effective environment.

The course has been developed by an industry professional with more than 45 years commercial aviation experience and a detailed exposure to organisation best practice.

This course is not for beginners it is intended for Industry Professionals who have a genuine desire and see a need within their respective organisations to understand exposure, integrate best practice and to promote and drive improvement.

Detailed Content / Topics - The following Subjects will be addressed

- Review of Quality Management System and Safety Management System with the EASA "World"
- Do we have a full and detailed understanding of the terminology and its effect & meaning - QMS / SMS Hazard & Risk / Proactive & Reactive.
- How are we Managing Occupational Health & Safety ? is it compliant with the National requirements -and integrated fully into the organisational SMS
- How effective are we at dealing with Root Cause Analysis - Who's responsibility anyway?
- What is the current status of our HF / CRM - "Let's be honest" Is it tick the box or does it genuinely add value (how to determine)?
- How are we currently measuring the effectiveness of our SMS - what metrics are we using and do they deliver the information in the way we require?
- How effective is our QMS? - How to measure & what are the indicators
- What is the difference between an organisational optimizing QMS and an EASA compliant QMS
- How to Gather Data from HF / CRM Training?
