Bulgaria's pleasingly laid-back capital is often overlooked by visitors heading straight to the coast or the ski resorts, but they're missing something special. Sofia is no grand metropolis, but it's a largely modern, youthful city, with a scattering of onion-domed churches, Ottoman mosques and stubborn Red Army monuments that lend an eclectic, exotic feel.

Recent excavation work carried out during construction of the city's metro unveiled a treasure trove of Roman ruins from nearly 2000 years ago, when the city was called 'Serdica'. Away from the buildings and boulevards, vast parks and manicured gardens offer a welcome respite, and the ski slopes and hiking trails of the mighty Mt Vitosha are just a short bus ride from the centre. Home to many of Bulgaria's finest museums, galleries, restaurants and clubs, Sofia may persuade you to stick around and explore further.

Rick Steves' Europe episode about Bulgaria will trace the country's complex history, from ancient Thracian tombs to medieval Orthodox Christian monasteries to Soviet monuments. And we'll enjoy an intimate taste of contemporary culture: the yellow brick road of Sofia; the gregarious craftspeople of the medieval capital, Veliko Tarnovo; and the thriving pedestrian zones of cosmopolitan Plovdiv.
