Part M training

This course will give to delegates an overview of Part M implementation and how to avoid potential problems. It will also provide a thorough understanding of the Role of Part M in all jurisdictions managed by an EASA Regulatory environment, In particular the role of Contract and Subcontract organizations.

Part 145:

This training will provide a detailed regulatory and industry view of Part 145 best practices for all staff involved in PART 145 maintenance and to promote the delegates understanding concerning both airworthiness and maintenance principles as well as to give an overview of Part 145 implementation and how to avoid potential problems.

Logistics:

Developing a detailed awareness regarding the most effective and efficient EASA compliant Stores and Logistics processes in your organisation will benefit both the employee and the employer. This Foundation Course Introduces Delegates to many of the regulatory requirements, roles and responsibilities within the Stores Environment.

Technical Records:

This training provides a detailed grounding of the Regulatory environment to understand terms, their meanings and relationship. The purpose of the course is to share the importance of technical records and the importance of the highest standards in managing technical records.
