OUR ONLINE TRAINING COURSES ARE DESIGNED TO BE EASILY ACCESSIBLE, AFFORDABLE AND OPTIMALLY STRUCTURED TO HELP YOU REACH YOUR GOALS

(EC) Regulation 965/12 Training Essentials

The purpose of this course is to familiarize current AOC holders and other Operational and Concerned Personnel with a detailed understanding of EASA Part OPS Structure and Environment with emphasis on Compliance Monitoring and AMC & GM procedures

Aviation Compliance Auditing in an EASA Environment

This course delivers a comprehensive understanding of all elements of an Aviation Compliance led Quality Management System (QMS). Organizations which can deliver the most effective quality audit system, together with an efficient process to follow up with all identified issues in a practical way, can excel in the delivery of their core products and services.

Safety Management System Overview and Recurrent

This course provides for a comprehensive review of the overall effectiveness of your SMS. You will consider SMS best practice and perform a GAP analysis against your organisation system. It is specifically designed for those who need to engage with a full understanding and manage, or deliver specific guidance within their own organisations.
