

Risk Management & Root Cause for EASA Regulatory Authorities– 1 Day

INTRODUCTION

This 1 Day course is focused on the regulatory oversight and auditing of Risk Management and Root Cause practices within EASA compliant organisations.

The course considers how to engage with the process of "Risk Management" and how to perform effective "Root Cause" The training also considers best practices compliance with ICAO and references the risk-based approach to the principles of auditing found in ISO 19011- 2018.

The delegate will consider in depth Compliance Management Auditing of Root Cause, as well as raise an understanding of the difference related to root cause process and methodology within the Quality System (QMS).

Throughout the course the focus is on the effective identification of root cause analysis together with the promotion of positive action.

What are the benefits of Leadership Training - What will I learn?

- a) Understand the various techniques for engaging with Risk Based Auditing
- b) Increase the effectiveness of the regulatory process but understanding techniques for assessment of Auditee's Root Cause & RCA Competence
- c) Attend a course which has been designed with the specific focus related to your role of Regulatory Authority auditor
- d) Achieve a comprehensive understanding related to the process of regulatory audit or Risk Based Quality Assurance and Root Cause Analysis
- e) Provide a standard approach which delivers consistency across a range key of business areas
- f) Be able to add system value by providing the approval holder with a clear understanding of non-conformities

Why Should I choose SAS for the training?

Sofema Aviation Services a Regulatory training and consulting company with 45 years commercial aviation experience and 10 years operational experience. Since we started we have provided certificates to approx 15,000 delegates we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers. Please visit our download area as an example of how we engage with our customer [Download Area](#).

The second is not only the fact that our prices are far more cost effective than our competitors it is that our discount program leaves all the others way behind - please do not take our word for it check it out! [SAS Discount Program](#)

What Makes Risk Management & Root Cause for EASA Regulatory Authorities 1 day Different?

Because our courses are written by people who have lived through the regulations, from the introduction in the early 90's as JAR through to the transfer to EASA in 2003. The author of the training material has more than 25 years' experience as an EASA auditor across the entire regulatory spectrum including Initial and Continuing Airworthiness. Operations and Airports.

At Sofema Aviation Services our focus is on accepting that compliance with EASA Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimisation of our business is where we should see opportunity to drive efficiencies and cost saving.
