

Safety Management Systems SMS For Aerodromes – ICAO – 3 Days

INTRODUCTION

The airport is a busy and dynamic environment with many stakeholders required to integrate into a unified SMS process. An effective SMS is about identifying exposure to risk as felt by the entire business.

This 3 Day intensive training is based on compliance with ICAO Annex 19.

This intensive 3 Day course focuses on the effective development of an Aerodrome, EASA Compliant Safety Management System. Understanding the roles and responsibilities of developing and implementing process procedures and policies.

The course is highly participative and provides a full understanding of the various roles and responsibilities required to implement an effective SMS system. The primary focus of the training is to support the delegates need to deliver effective management of safety including the process to measure risk and exposure and the development of mitigation strategies.

What is the Benefit of this Training -What will I learn?

- Gain an awareness of the philosophy of safety management.
- Be able to explain the needs and benefits of SMS.
- Be able to deliver a SMS gap analysis process within the aerodrome system.
- Understand the application of SMS within the aerodrome environment.
- Understand Roles and Responsibilities related to the Effective Implementation of an Airport SMS.

Why Should I choose SAS for the training?

Sofema Aviation Services a Regulatory training and consulting company with 45 years commercial aviation experience and 10 years operational experience. Since we started we have provided certificates to approx 15,000 delegates we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers. Please visit our [download area](#) as an example of how we engage with our customer.

The second is not only the fact that our prices are far more cost effective than our competitors it is that our discount program leaves all the others way behind – please do not take our word for it check it out! [SAS Discount Program.](#)

What Makes Safety Management Systems SMS For Aerodromes - ICAO - 3 Days Training Different?

Because our courses are written by people who have spent many years fully engaged within the Aviation System we are very familiar with the potential risk areas, as well as challenges and opportunities to develop effective working practices.

At Sofema Aviation Services our focus is on accepting that compliance with EASA Regulations and other Industry led compliance requirement's is in fact minimum compliance.

We are specialised in Interpreting the regulations in a way which enables the development and optimization of our business. Our goal is to help our clients seek opportunities to drive efficiency and cost saving.
