

TRAINING COURSE DETAILS

Logistics and Stores Inspection Procedures EASA – 3 Days

INTRODUCTION

The EASA 145 Stores Management and Inspection System is an essential element of the 145 approval. It must be managed and staffed by trained and competent staff. This training is designed to cover all elements which are essential to the effective management and operation of a fully compliant store

This in depth 3 day training is designed to provide attendees with:

A detailed practical understanding of the requirements to Manage and Develop an Aviation Store.

- To provide a regulatory and industry perspective for staff involved in Stores Management and Receipt Inspection.
- Develop the attendees understanding of airworthiness and Receipt Certification principles including:-Electrostatic Inspection.
- To Develop procedures for use in Stores and Goods Inspection.
- To review the problems associated with bogus parts.
- The trainee must demonstrate an understanding the subjects covered

The course meets the intent of IOSA (MNT 4.5.6 The Operator shall ensure each maintenance organisation that performs maintenance for the Operator has a training programme that provides for initial and continuation training for receiving inspectors) and Part 145 Stores Inspection competency training.

This course has been expanded by 1 day to cover several additional elements and to allow additional time to consider all elements.

Who is the Course for?

It is for anyone with an interest who needs a detailed awareness of EASA Part 145 Stores Management & Inspection Procedures.

The course will be of interest to New Entrants in Stores & Logistics wishing to achieve a deep understand the regulations applicable to an EASA Compliant Stores Environment.

The Course will also benefit Quality Audit Staff to raise a detailed awareness to support the audit process.

What is the Benefit of this Training - What will I learn?

This training is designed to cover all elements which are essential to the effective management and operation of a fully compliant store. This in depth 3 day training is designed to provide attendees with: A detailed practical understanding of the requirements to Manage and Develop an Aviation Store.

- a) Understand the processes which drive effective management of an EASA Compliant Store.
- b) Be able to explain the regulations which cover both EASA Part 145 & EASA Part M related to the Logistics Process for staff involved in Stores Management and Receipt Inspection.
- c) Understand the process of managing documentation related to airworthiness and Receipt Certification principles.
- d) Understand the principles of Electrostatic Inspection.
- e) Be able to develop procedures for use in Stores and Goods Inspection.
- f) Review the problems associated with suspect and bogus parts EASA / FAA
- g) Have confidence in full compliance within the supply chain and the ability to perceive opportunity to optimise
- h) Be able to demonstrate Part 145 and Part M Supply Chain Compliance to maintain effective QC and to avoid or mitigate problems

Why Should I choose SAS for the training?

Sofema Aviation Services is a Regulatory Training and Consulting company with 45 years of commercial aviation experience and 10 years operational experience. Since the start we have provided certificates to approx 20,000 delegates and we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers.

The second reason is a combination of outstanding course fees, together with a world beating discount program which leaves our competitors way behind – please do not take our word for it, [check it out!](#)

TRAINING COURSE DETAILS

What Makes SAS Logistics & Stores Inspection Procedures EASA - 3 Days Training Different?

Because our courses are written by people who have lived through the regulations, from the introduction in the early 90's as JAR145 through to the transfer to EASA 145 in 2003. EASA Part 145 is a one of the most mature regulations coming from the EASA Stable.

At Sofema Aviation Services our focus is on accepting that compliance with EASA Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimisation of our business is where we should see opportunity to drive efficiencies and cost saving.
