

TRAINING COURSE DETAILS

Republic Of Indonesia DGCA CASR Part 121 & 135 Continuous Airworthiness - Essentials – 1 day

Introduction

It is important that personnel involved in managing the Continuous Airworthiness of an aircraft used for Civil Aviation Transport (CAT) have a thorough understanding of their responsibilities to comply with all relevant Indonesia DGCA Civil Aviation Safety Regulation (CASR).

This course provides delegates with a detailed understanding of the continuing airworthiness requirements for holders of an Indonesia DGCA CASR Part 121 or a CASR Part 135 Air Operator Certificate (AOC).

Through attending this training, delegates will gain knowledge of the related CASR requirements to ensure that aircraft being operated by the certificate holder are kept in a condition where each aircraft remains airworthy throughout its life - or in other words safe for flight.

Sofema Aviation Services supports a practical understanding of the interpretation of all regulations to ensure that the certificate holder can comply in the most effective way.

Date

Who Is The Course For?

This course is for persons who are involved in the Technical Management of Continuous Airworthiness of Large Aircraft including personnel working in Maintenance Planning, Technical Engineering, Quality Assurance, Reliability, and Technical Records, as well as anyone with an interest to achieve effective and CASR compliant monitoring of Continuous Airworthiness.

TRAINING COURSE DETAILS

What Is The Benefit Of This Training - What Will I Learn?

- a) An understanding of the requirements of CASR Part 121 and CASR Part 135 Continuous Airworthiness requirements.
- b) Understanding organizational Roles and Responsibilities in compliance to Continuous Airworthiness requirements.
- c) Understand what constitutes a robust Analysis and Surveillance program to monitor the performance and effectiveness of the maintenance program.
- d) Understanding the concepts of Continuous Airworthiness, and its importance to ensure safety of flight.
- e) Have an in-depth understanding of the interface between the Operator and Approved Maintenance Organization for Continuous Airworthiness Roles, Responsibilities, and Obligations.
- f) Be able to demonstrate compliance with CASR requirements for Continuous Airworthiness to avoid or mitigate problems.

Why Should I Choose SAS for the Training?

Sofema Aviation Services is a Regulatory Training and Consulting company with 45 years of commercial aviation experience and 10 years operational experience. Since the start we have provided certificates to approx 20,000 delegates and we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers. The second reason is a combination of outstanding course fees, together with a world beating discount program which leaves our competitors way behind – please do not take our word for it, [check it out!](#)

What Makes Republic Of Indonesia DGCA CASR Part 121 & 135 Continuous Airworthiness Essentials different?

Because our courses are written by experts who have managed Indonesia DGCA Approved Maintenance Organizations responsible for airworthiness in an operations capacity, and in a Quality & Safety role.

This allows the instructor to draw on his knowledge and relate to his experiences to deliver an effective training session beneficial for the delegates. At Sofema Aviation Services our focus is on accepting that compliance with Civil Aviation Regulations is in fact minimum compliance.

Interpreting the regulations in a way which enables the development and optimization of the business is where we should see opportunities to drive efficiencies, and cost savings.
