

TRAINING COURSE DETAILS

Safety Management Systems Risk Monitoring and Safety Performance Overview and Recurrent – 2 Days

Introduction

What do we mean by an effective SMS?

It is not just about meeting the framework objectives it is about developing an integrated management system which, as well as ensuring the minimization of hazards and the associated risks, engages with the organisation process and procedures in a way that supports efficiency and optimisation to drive organisational improvement.

Periodically we should consider our Safety Management Systems in a more Holistic way to consider whether it is delivering the optimum benefit for our organisation.

This 2 day course aims to provide a comprehensive review of the overall effectiveness of our SMS. by performing a review of the current Risk Monitoring and Safety Performance processes.

Delegates will undertake a detailed review of SMS within their organisation and establish a detailed understanding regarding the current challenges and detailed opportunities to develop the system and improve effectiveness.

Maintaining an effective Safety Management Systems is far more challenging than many people realize.

The course is for persons who are currently familiar with ICAO SMS objectives. The course is intensive highly practical, and promotes best industry practices. The course is a highly participative and stimulates involvement and provides for powerful motivation.

Extensive use is made of group exercises, workshop activities, case studies and feedback.

Who is the Course for?

It is for persons who are actively involved in the management or Interaction or the organisations SMS including Quality Audit Staff, Nominated Persons, and business process owners, as well as anyone with an interest to achieve an effective understanding of the SMS Hazard Identification & Risk Mitigation processes.

What is the Benefit of this Training - What will I learn?

- a) To be able to explain the organisation SMS methodology related to Risk Mitigation.
- b) To understand the mechanism whereby the Senior Management can demonstrate effective oversight and management of its risks.
- c) To understand the meaning of "Top Down" Safety Management Systems – and what it means for business leaders.
- d) To be able to actively engage in the involvement of all the staff in safety
- e) To understand the methodology used to mitigate or control the potential "safety threats by assessing hazards and dealing with the associated risks
- f) Understanding the need to provide Senior Management with full awareness of the key risks or exposures of the business
- g) To develop the ability to Mitigate or control the potential "safety threats.

Why Should I choose SAS for the training?

Sofema Aviation Services is a Regulatory Training and Consulting company with 45 years of commercial aviation experience and 10 years operational experience. Since the start we have provided certificates to approx 20,000 delegates and we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers.

The second reason is a combination of outstanding course fees, together with a world beating discount program which leaves our competitors way behind – please do not take our word for it, [check it out!](#)

What Makes SAS Safety Management Systems Risk Monitoring and Safety Performance Overview and Recurrent - 2 Day different?

Our instructors are competent and well versed in the need to build SMS understanding into a range of opportunities which may be used to take the organization forward, by delivering outcomes, identifying roles and responsibilities and agreed timelines.

At Sofema Aviation Services our focus is on accepting that compliance with EASA Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimization of our business is where we should see opportunity to drive efficiency and cost saving.
