TRAINING COURSE DETAILS

## Aircraft Turnaround Coordination – 5 Days

### Introduction

Aircraft Turnaround Coordination training provides a detailed overview and wide range of associated subjects and provides the tools required to successfully coordinate the turnaround of aircraft. This type of course is suitable for existing staff who may require additional knowledge or those less experienced who aspire to the role. This course is designed to be compliant with the requirements of IATA AHM 611 and other applicable standards.

The turnaround of an aircraft is a key and vital activity for an airline. With it comes pressure, time constraints and a fast changing environment which requires a broad knowledge, situational awareness and team management.

### Who is the Course for?

Turnaround Coordinators, Ramp Supervisors, Ramp Agents, Aircraft Dispatchers and Team Leaders of a GSP or an Airline would benefit from attending this course.

### What is the Benefit of this Training - What will I learn?

To provide participants with the detailed understanding and the skills to safely and efficiently turnaround an aircraft.

### Why Should I choose SAS for the training?

Sofema Aviation Services is a Regulatory Training and Consulting company with 45 years of commercial aviation experience and 10 years operational experience. Since the start we have provided certificates to approx 20,000 delegates and we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers.

The second reason is a combination of outstanding course fees, together with a world beating discount program which leaves our competitors way behind – please do not take our word for it, [check it out!](#)
