TRAINING COURSE DETAILS

EASA Compliant Advanced Quality Auditing Recurrent – 2 Days

Introduction

Being able to support an in-depth understanding of non-conformities in your organisation is part of the mission. Being able to clearly explain the exposure to your organisations business area owners and post holders is an essential attribute of an effective Quality Assurance Auditor.

Our Detailed Auditing Techniques Training Masterclass' techniques may be applied in any audit situation including management system processes, determining the effectiveness of existing or client quality & safety audit systems.

The training is extremely effective and is suitable for both regulatory authorities as well as industry. Have you ever wondered how it is that accident investigators understand all the shortfalls and exposures – but after an accident or incident. It is possible to audit at this level before an accident.

This course is highly interactive with all delegates having the opportunity to fully engage to consider best practice techniques related to both auditing techniques and compliance oversight methodology.

Auditing is either a tick the box exercise to keep the regulatory authority at bay or Auditing is a powerful tool for establishing the effectiveness of an organisation. (Incidentally we teach the latter)

Who is the course for?

This training is suitable for Compliance Managers, Maintenance Managers and Compliance Auditors, as well as people working in the Quality Assurance Department. It is relevant for members of the quality Assurance Audit department, all business area stake holders and owners.

What is the Benefit of this Training - What will I learn?

a) To consider the Key elements required to drive the organizations quality system to both ensure compliance and to deliver maximum effectiveness.

What is the Benefit of this Training - What will I learn?

- b) Obtain a detailed practical understanding of advanced auditing methodology and how you can apply what you learn in the workplace.
- c) An essential element then of benefiting from this training is to focus on the issues, how they relate in our work place, and what we need to do to address them.
- d) How to identify areas which need special attention and how to focus our efforts on making sure our trainings deliver in all relevant areas.
- e) Significantly improve your own competence related to audit delivery

Why should I choose SAS for this training?

Sofema Aviation Services a Regulatory training and consulting company with 45 years commercial aviation experience and 10 years operational experience. Since we started we have provided certificates to approx 20,000 delegates we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers. Please visit our [download area](#) as an example of how we engage with our customer.

The second is not only the fact that our prices are far more cost effective than our competitors it is that our [discount program](#) leaves all the others way behind – please do not take our word for it check it out!

What Makes EASA Compliant Advanced Quality Auditing Recurrent - 2 Days Different?

Because our courses are written by people who have lived through the regulations. The author of the training material has more than 25 years' experience as an auditor across the entire regulatory spectrum.

At Sofema Aviation Services our focus is on accepting that compliance with Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimisation of our business is where we should see opportunity to drive efficiencies and cost saving.
