TRAINING COURSE DETAILS

Managing Ramp & Airside Safety – 4 Days

Introduction

The Managing Ramp & Airside Safety course focuses on infrastructure, equipment, personnel and the processes that operate in airside and ramp areas. The course details the "how, what and why" of airside and ramp safety, how risks are assessed and mitigated and the considerations and requirements that make up a safe operating environment.

The airside and ramp areas of an airport are complex and hazardous operating environments. Safety is the highest priority and understanding what can go wrong as well as preventing accidents requires a detailed and broad knowledge of the subject

Who is the Course for?

Auditors, Inspectors and Safety Teams from Airlines, GSP's, Airports & Regulators who want to improve their knowledge of this area would benefit from attending this course.

What is the Benefit of this Training - What will I learn?

To provide participants with a detailed level of knowledge, insight and detail of the issues, risks, requirements and processes associated with operating safely in this area.

Why Should I choose SAS for the training?

Sofema Aviation Services is a Regulatory Training and Consulting company with 45 years of commercial aviation experience and 10 years operational experience. Since the start we have provided certificates to approx 20,000 delegates and we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers.

The second reason is a combination of outstanding course fees, together with a world beating discount program which leaves our competitors way behind – please do not take our word for it, [check it out!](#)

What Makes SAS Managing Ramp & Airside Safety - 4 Days different?

Because our courses are written by people who have lived through the regulations. The author of the training material has more than 25 years' experience as an auditor across the entire regulatory spectrum.

At Sofema Aviation Services our focus is on accepting that compliance with Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimisation of our business is where we should see opportunity to drive efficiencies and cost saving.
