TRAINING COURSE DETAILS

## Safety Management Systems For Aerodromes – 3 Days

### Introduction

An aerodrome operations specific 3-day basic programme designed for those responsible for developing, implementing and participating in a systematic approach to managing aviation safety, including the necessary organisational structures, accountabilities, policies and procedures.

The course recognises and responds to the dynamic airport environment where several key service providers may have to facilitate integration of individual SMS to ensure a safe operational environment. The importance of managing safety within the airside environment is the focal point of the course.

### Who is the Course for?

Aerodrome Senior Management, Quality, Operations and Safety Managers, and others tasked with managing safety or those who are involved with developing and implementing an SMS or need to possess knowledge and understanding of airside safety and operations.

### What is the Benefit of this Training - What will I learn?

Delegates will acquire the knowledge to help implement key components of a basic SMS. The course is highly interactive and promotes SMS industry 'best practice'.

### Why Should I choose SAS for the training?

Sofema Aviation Services is a Regulatory Training and Consulting company with 45 years of commercial aviation experience and 10 years operational experience. Since the start we have provided certificates to approx 20,000 delegates and we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers.

The second reason is a combination of outstanding course fees, together with a world beating discount program which leaves our competitors way behind – please do not take our word for it, [check it out!](#)

TRAINING COURSE DETAILS

## What Makes SAS Safety Management Systems For Ground Operations - 3 Days different?

Because our courses are written by people who have lived through the regulations. The author of the training material has more than 25 years' experience as an auditor across the entire regulatory spectrum.

At Sofema Aviation Services our focus is on accepting that compliance with Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimisation of our business is where we should see opportunity to drive efficiencies and cost saving.
