

Aviation Leadership and Management Skills Development - EASA AM & Nominated Person 6 Sigma Awareness - ½ Day

Introduction

"Six Sigma can be defined as a methodology that uses organizational tools with an objective to improve the capability of their business processes."

Six - Sigma is essentially a data-driven management process that seeks to improve quality by identifying the number of defects across the business process and systematically eliminating all defects until they approach zero (or as close as possible)

Six Sigma requires a management environment that supports initiatives to understand the discrepancies and develop mitigations as a business strategy."

Six Sigma promotes DMAIC as a viable business approach to problem solving:

Define, Measure, Analyze, Improve, and Control."

The term Six Sigma is used to indicate whether the quality of a particular process is within a limit of $\pm 6\sigma$ from the center line.

Who is the Course for?

Why Should I Choose SAS for the training?

Sofema Aviation Services a Regulatory training and consulting company with 45 years of commercial aviation experience and 12 years of operational experience. Since we started we have provided certificates to approx 25,000 delegates we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers. Please visit our download area as an example of how we engage with our customer.

The second is not only the fact that our prices are far more cost-effective than our competitors it is that our discount program leaves all the others way behind – please do not take our word for it [check it out!](#)

What Makes SAS Aviation Leadership and Management Skills Development - EASA AM & Nominated Person 6 Sigma Awareness - ½ Day Different?

Because our courses are written by people who have lived through the regulations, from the introduction in the early '00s. EASA Part M is an essential regulation related to the management of the aircraft.

At Sofema Aviation Services our focus is on accepting that compliance with EASA Regulations is, in fact, minimum compliance. Interpreting the regulations in a way which enables the development and optimization of our business is where we should see an opportunity to drive efficiency and cost-saving.
