

# Air Crew Licensing CAR – FCL – 2 Days

## Introduction

The General Civil Aviation Authority (GCAA) intends to issue regulation providing formal requirements, Acceptable Means of Compliance (AMC), and Guidance Material (GM) relating to Flight Crew Licensing, Aviation Training Organisation approval and oversight.

The full regulation will have a phased implementation and will see full mandatory compliance by February 27th 2015.

The NPA was developed by the GCAA incorporating an identified need to update the existing GCAA Flight Crew Licensing regulations in CAR Part II and CAR Part IV in order to harmonise the current GCAA Safety Affairs regulatory suite, and inputs from a centralised Committee consisting of regulatory and industry experts.

The intent was to write a forward focused set of regulations that closely mirror the EASA Flight Crew Licensing regulations in order to meet GCAA strategic objectives and to ensure greater synergy with other Regulatory bodies for the betterment of the UAE Aviation Industry as a whole.

This 2 Day intensive training considers all the elements of the CAR FCL legislation.

## Who is this course for?

This course is suitable for Pilots and Flight Operations Quality Auditors, Flight Operations Inspectors, Regulators and other External Auditors and Interested Parties

## Why Should I choose SAS for the training?

Sofema Aviation Services is a Regulatory Training and Consulting company with 45 years of commercial aviation experience and 10 years operational experience. Since the start we have provided certificates to approx 20,000 delegates and we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers.

The second reason is a combination of outstanding course fees, together with a world beating discount program which leaves our competitors way behind – please do not take our word for it, [check it out!](#)

## What Makes Air Crew Licensing CAR – FCL – 2 Days Training Different?

Because our courses are written by people who have lived through the regulations. The author of the training material has more than 25 years' experience as an auditor across the entire regulatory spectrum.

At Sofema Aviation Services our focus is on accepting that compliance with Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimisation of our business is where we should see opportunity to drive efficiencies and cost saving.
