

# Aircraft De-icing Anti-icing – 1Day

## Introduction

De-icing / Anti-icing Training is mandatory for all staff engaged in the actual de-icing /anti-icing process, in addition staff supervising the process, and staff controlling the process also require to be trained.

The training course is designed to promote a full understanding of the responsibilities associated with the important task to determine the need for de-icing / anti-icing before aircraft dispatch.

Responsibility lies either both with the trained and qualified person who performs the departure duties together with the Flight Crew who have the ultimate responsibility for a safe departure.

All persons involved both on the ground and flight crew, should be suitably trained and qualified for winter operations.

## Who is this course for?

This course is suitable for any person who is working in the vicinity of aircraft, working on aircraft or working anywhere where there is potential exposure to Aircraft Parking Bays, Maintenance Areas, Runways or Taxiway's.

## Why Should I choose SAS for the training?

Sofema Aviation Services is a Regulatory Training and Consulting company with 45 years of commercial aviation experience and 10 years operational experience. Since the start we have provided certificates to approx 20,000 delegates and we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers.

The second reason is a combination of outstanding course fees, together with a world beating discount program which leaves our competitors way behind – please do not take our word for it, [check it out!](#)

## What Makes Aircraft De-icing Anti-icing – 1Day Training Different?

Because our courses are written by people who have lived through the regulations. The author of the training material has more than 25 years' experience as an auditor across the entire regulatory spectrum.

At Sofema Aviation Services our focus is on accepting that compliance with Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimisation of our business is where we should see opportunity to drive efficiencies and cost saving.
