

# Aircraft Ramp Safety and Ramp Human Factors Training Essentials – 1 Day

## Introduction

Ramp accidents cost major airlines worldwide at least US\$10 billion a year, the data indicates. These accidents affect airport operations, result in personnel injuries, and damage aircraft, facilities and ground-support equipment.

The Training is designed to raise awareness of all organisational elements of Ramp Safety and to consider the various challenges which face us both directly and indirectly.

The delegate will understand the exposure created by Human Factor considerations and will receive familiarization regarding best practice safety procedures on the ramp in order to create safety awareness.

## Who is the course for?

All employees with operational duties on the ramp, supervisors managers and quality audit staff.

## Why Should I Choose SAS for the training?

Sofema Aviation Services a Regulatory training and consulting company with 45 years of commercial aviation experience and 12 years of operational experience. Since we started we have provided certificates to approx 25,000 delegates we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers. Please visit our download area as an example of how we engage with our customer.

The second is not only the fact that our prices are far more cost-effective than our competitors it is that our discount program leaves all the others way behind – please do not take our word for it [check it out!](#)

## What Makes SAS Aircraft Ramp Safety and Ramp Human Factors Training Essentials – 1 Day Different?

Because our courses are written by people who have lived through the regulations. The author of the training material has more than 25 years' experience as an auditor across the entire regulatory spectrum.

At Sofema Aviation Services our focus is on accepting that compliance with Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimisation of our business is where we should see opportunity to drive efficiencies and cost saving.
