

Overseas Territory Aviation Regulations (OTAR) Part 21 Certification of Aircraft - 2 Days

Introduction

The Overseas Territories Aviation Requirements (OTARs) describe the means by which aircraft operators, aviation personnel and providers of services can gain approvals, licences and certificates and the process through which these are maintained. This process ensures adequate levels of safety and internationally agreed standards are met.

Overseas Territories Aviation Circulars (OTACs) are issued to provide advice, guidance and information on standards, practices and procedures to support the Overseas Territories Aviation Requirements (OTARs). They may amplify or provide practical guidance on meeting a requirement. They may also contain administrative material, information of a temporary nature or information published in advance of a formal amendment to OTARs.

Who is the course for?

This course is aimed at quality managers, maintenance and continued airworthiness post holders, NAA staff, as well as EASA CAMO's, MRO's and Part 145 maintenance organisations wishing to gain OTAR 21 approval.

What is the Benefit of this Training - What will I learn?

- a) Awareness of the structure, composition, and impact of the OTAR regulatory obligations
- b) Understand the environment driving the Part 145 process to focus your business decision-making process.
- c) Confidence in gaining a detailed knowledge of the key components of OTAR 145 MOE
- d) Have the knowledge to be able to manage an OTAR MOE within your organization.
- e) A detailed understanding of the OTAR 145 Quality and Safety System.
- f) Be able to use the regulation to support full compliance within an Aircraft Maintenance Organization (AMO).

Why Should I choose SAS for the training?

Sofema Aviation Services is a Regulatory training and consulting company with 45 years commercial aviation experience and 10 years operational experience. Since we started, we have provided certificates to approximately 20,000 delegates. We have grown for 2 primary reasons!

The first is that we are professional, and we listen to our customers. Please visit our [download area](#) as an example of how we engage with our customers.

The second is not only the fact that our prices are far more cost effective than our competitors, it is that our [discount program](#) leaves all the others way behind – please do not take our word for it, check it out!

What Makes SAS Overseas Territory Aviation Regulations (OTAR) Part 21 Certification of Aircraft - 2 Days different?

Because our courses are written by people who have lived through the regulations. The author of the training material has more than 25 years' experience as an auditor across the entire regulatory spectrum.

At Sofema Aviation Services our focus is on accepting that compliance with Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimisation of our business is where we should see opportunity to drive efficiencies and cost saving.
