

Production Planning Basics – 1 Day

Introduction

Aircraft Production Planning belongs to the Maintenance Organisation and is related to the size of the organisation, from a very humble structure to an intensive business management process.

There is much opportunity available within the Production Planning business area to deliver savings and the challenge is to identify efficient business processes that can be used to gather the data, analyze and measure the opportunities and finally to act on this.

This Training introduces the delegate to the basics of the EASA 145 Production Planning Process and considers the elements which are involved to deliver an effective Production Planning System.

Who is this course for?

It is for anyone with an interest to get deeper into EASA Part 145 Production Planning, from newcomers to Post Holders.

Basically the course will be of interest from New Entrants in Aircraft Maintenance wishing to understand the regulations, through to Accountable Executives and Post Holders who need a deeper understanding of the efficiencies which may be driven by an effective maintenance Planning process..

What is the benefit of the training – what will I learn?

- a) To achieve a detailed understanding of the regulatory environment related to EASA Part 145 Production Planning
- b) Be able to explain the roles and responsibilities related to the interface between Maintenance and Production Planning.
- c) Be able to explain and promote a comprehensive understanding of the role of Production Planning in particular to include all the fundamental activities.
- d) Be able to use the regulation to proactively manage full compliance within EASA Part 145 Aircraft Maintenance Organisation (AMO) Production Planning Environment.

- g) Understanding the various challenges which face an organisation to optimise the Production Planning Process.
- h) Identify Specific issues which are both organisational and Industry specific.

Why Should I choose SAS for the training?

Sofema Aviation Services is a Regulatory Training and Consulting company with 45 years of commercial aviation experience and 10 years operational experience. Since the start we have provided certificates to approx 25,000 delegates and we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers.

The second reason is a combination of outstanding course fees, together with a world beating discount program which leaves our competitors way behind – please do not take our word for it, [check it out!](#)

What Makes SAS Production Planning Basics – 1 Day Different?

Because our courses are written by people who have lived through the regulations. The author of the training material has more than 25 years' experience as an auditor across the entire regulatory spectrum.

At Sofema Aviation Services our focus is on accepting that compliance with Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimisation of our business is where we should see opportunity to drive efficiencies and cost saving.
