

Boeing 737-600/700/800/900 (NG) (CFM56) EASA PART 66 – B1 & B2 Combined Theoretical & Practical Course Theory by Distance Synchronous Learning

Course Overview

The Boeing 737-600/700/800/900 (NG) (CFM56) B1/B2 Theoretical & Practical training course is in compliance with EASA Part-66, Appendix III. The participant will acquire the knowledge necessary to perform and certify maintenance tasks permitted to be carried out as certifying staff category B1 & B2.

At the end of the course, the participants will receive a Certificate of Recognition issued by our approved PART 147 school.

Delivery method, requirements and examinations

The theory elements of the course are delivered synchronously via a virtual conferencing platform. The course participants must have access to an stable internet connection and a device with audio and video camera capabilities.

Examinations will be conducted right before the practical training and at the same location, examinations will take 5 days. All exams must be passed in order to progress to practical training. Examinations could also be arranged in our training centre in Bulgaria or the United Kingdom if required.
