

# EASA Integrated Air Legislation Course – Overview – 1 Day

## Introduction

This training will provide a detailed overview of the EASA regulatory process. It is specially designed to introduce delegates to the working of the various elements of the regulations.

The Training focuses on the various roles and responsibilities of Operators, Maintainers Design and Production organisations.

The course is designed for students who are understanding for the first time the regulatory structure.

## Why Should I choose SAS for the training?

Sofema Aviation Services is a Regulatory Training and Consulting company with 45 years of commercial aviation experience and 10 years operational experience. Since the start we have provided certificates to approx 25,000 delegates and we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers.

The second reason is a combination of outstanding course fees, together with a world beating discount program which leaves our competitors way behind – please do not take our word for it, [check it out!](#)

## What Makes SAS EASA Integrated Air Legislation Course – Overview – 1 Day Different?

Because our courses are written by people who have lived through the regulations. The author of the training material has more than 25 years’ experience as an auditor across the entire regulatory spectrum.

At Sofema Aviation Services our focus is on accepting that compliance with Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimisation of our business is where we should see opportunity to drive efficiencies and cost saving.
