

EASA Quality Assurance Auditing Introduction for Air Navigation Services (ANS) – 3 Days

Introduction

Are you familiar with EASA driven Quality Systems? Please make no mistake it is different in terms of responsibility ownership and obligations. Do you know what makes a good EASA auditor?

This course is especially designed for the persons who wish to involve in auditing Air Navigations Services. If you have never audited before but wish to, then this is the course for you.

The course assumes a basic knowledge of aviation systems and processes however assumes no knowledge of EASA Quality Systems and focuses on introducing the delegate to all the concepts associated with basic compliance auditing

Compliance Management Auditing raises an understanding of the various roles of a quality system within the organisation, in particular to focus on effective identification of the need to perform root cause analysis of the discrepancies, and to take positive action.

Who is the course for?

It is for anyone with an interest to get deeper into ANS auditing within an EASA context.

Basically the course will be of interest from new entrants in ANS Quality Auditing, through to Accountable Executives and Post Holders who need a deeper understanding of Individual and Organisational Obligations.

Consider that EASA regulatory requirements related to Quality Auditing is the starting point – The real advantage is understanding in detail how we can make the QA audit program work for the organisation in a meaningful way.

What is the Benefit of this Training – What will I learn?

- a) Understand the various techniques for effective auditing across the business
- b) Learn how to identify compliance type audit findings
- c) Develop a detailed understanding of the roles and responsibilities related both to the compliance delivery system (Quality Control – QC) and the independent compliance oversight system (Quality Assurance QA)
- d) Understand the management of quality standards and how they may be developed within the organisation
- e) Understand how the EASA Management System functions
- f) Learn the does and don'ts of Aviation Audit Best Practices – what works best – Why & How?

Why Should I Choose SAS for the training?

Sofema Aviation Services a Regulatory training and consulting company with 45 years of commercial aviation experience and 12 years of operational experience. Since we started we have provided certificates to approx 25,000 delegates we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers. Please visit our download area as an example of how we engage with our customer.

The second is not only the fact that our prices are far more cost-effective than our competitors it is that our discount program leaves all the others way behind – please do not take our word for it [check it out!](#)

What Makes SAS EASA Quality Assurance Auditing Introduction for Air Navigation Services (ANS) – 3 Days Different?

Because our courses are written by people who have lived through the regulations. The author of the training material has more than 25 years' experience as an auditor across the entire regulatory spectrum.

At Sofema Aviation Services our focus is on accepting that compliance with Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimisation of our business is where we should see opportunity to drive efficiencies and cost saving.
