

# FAA FAR Essentials for Powerplant Repair Stations – 1 Day

## Introduction

There is no doubt that the aviation industry is comprehensively regulated with each regulatory authority having its own regulations peculiar to their country – for the personnel employed in maintenance activities, regulations can be a “minefield” to maneuver through and understand how their role impacts aviation quality and safety and their organisations business.

The U.S. Federal Aviation Administration (FAA) is one of the major regulatory bodies with aspects of its regulations structure that differ from their European counterpart – the European Aviation Safety Administration (EASA).

This training focuses on essential FAA regulations that personnel employed in a FAA 14 CFR Part 145 certificated Repair Station should have an understanding of, and how those personnel should apply the regulations during their daily tasks.

The instructor covers the applicable regulations and relevant guidance material, provides examples of how the regulations and business intersect, and differences between the FAA and EASA regulations.

## Why Should I choose SAS for the training?

Sofema Aviation Services is a Regulatory Training and Consulting company with 45 years of commercial aviation experience and 10 years operational experience. Since the start we have provided certificates to approx 25,000 delegates and we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers.

The second reason is a combination of outstanding course fees, together with a world beating discount program which leaves our competitors way behind – please do not take our word for it, [check it out!](#)

## What Makes SAS GCAA Aircraft Technical Records Essentials – 1 Day Different?

Because our courses are written by people who have lived through the regulations. The author of the training material has more than 25 years' experience as an auditor across the entire regulatory spectrum.

At Sofema Aviation Services our focus is on accepting that compliance with Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimisation of our business is where we should see opportunity to drive efficiencies and cost saving.

## Target Groups

This course is beneficial for management, supervisors, inspection personnel, and persons issuing approvals for return-to-service.

## Pre-Requisites?

A background in an aviation environment.
