

# Root Cause Analysis for Aviation Business Area Owners, Quality & Safety Practitioners – 2 Days

## Introduction

Organisations which can deliver an effective quality audit system and a process to follow up with all issues in an effective and practical way, grow and flourish.

The Aviation Quality System should be at the heart of the operation, fully functioning within every department and element of the organisation.

The ability to understand exposure and to analyze root causes are without doubt essential skills for auditors and managers alike.

The purpose of this training is to identify best practice techniques and behaviours to support the delivery of effective Root Cause Analysis. This course is intended to be highly practical and to help the delegate focus on the 5 elements which exist within a finding or issue.

The finding – What is the problem? – Why is it a problem? – What standard has not been met (is it internal or external)? – Why did it happen? – How to consider Root Cause?

The outcomes of such activities play a significant role in supporting the organization to achieve its goals to not just maintain, but to exceed regulatory compliance – What is the consequence – risk or opportunity considered and to consider the corrective action disposition – Who, What & When?

## Who is the course for?

Determination of root cause is a task addressed to functional area managers, nominated persons and senior management. The course is also beneficial for persons involved with interaction with organization SMS.

## What is the Benefit of this Training – What will I learn?

- a) To be able to explain the key elements required to ensure the organisations compliance audit System processes are able to identify Root Cause to both ensure compliance and to deliver maximum effectiveness.
- b) To be able to explain the requirements for both the QA and SMS systems including an understanding of the different types of audit applicable for each area together with how the QMS and SMS integrate within the overall Management System Process.
- c) To consider in-depth Compliance Management Auditing and to raise an understanding of the difference related to root cause within the Quality System (QMS) & Safety System (SMS)
- d) Ability to focus on effective identification of root cause analysis and promotion of positive action within the business area
- e) To be able to place a clear priority on best practice management within a strong quality assurance "compliance-based" system.
- f) Understand techniques to focus on the organisational issues during the audit including the relationship within the workplace and responsibility to address issues.
- g) Understanding how an effective Quality Assurance system can support the effectiveness of the organisation

## Why Should I Choose SAS for the training?

Sofema Aviation Services a Regulatory training and consulting company with 45 years of commercial aviation experience and 12 years of operational experience. Since we started we have provided certificates to approx 25,000 delegates we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers. Please visit our download area as an example of how we engage with our customer.

The second is not only the fact that our prices are far more cost-effective than our competitors it is that our discount program leaves all the others way behind – please do not take our word for it [check it out!](#)

## What Makes SAS Root Cause Analysis for Aviation Business Area Owners, Quality & Safety Practitioners – 2 Days Different?

Because our courses are written by people who have lived through the regulations. The author of the training material has more than 25 years' experience as an auditor across the entire regulatory spectrum.

At Sofema Aviation Services our focus is on accepting that compliance with Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimisation of our business is where we should see opportunity to drive efficiencies and cost saving.

## Target groups

This training is highly relevant for senior management and members of the quality Assurance Audit department, it is also relevant for all business area stakeholders.

## Pre-requisites

A background or understanding of Aviation audit.

## Learning Objectives

To re-enforce a comprehensive understanding of the requirements for both the QA & SMS systems including an understanding of the different types of audit applicable for each area and how to identify discrepancies.

To understand the methodology to determine root cause and develop appropriate responses.

To consider the fundamentals of a fully compliant Aviation Quality System together with the key elements required to deliver maximum effectiveness.

How to identify areas which need special attention and how to focus our efforts on making sure we have a comprehensive understanding of multiple root causes.

An essential element then of benefiting from this training is to focus on the issues, how they relate in our workplace, and what we need to do to address them.

The intention of this training is not to tick the regulatory box but to identify the significant issues which need to be addressed.
