

Aviation Quality Auditing & Root Cause Analysis for Nominated Persons and Business Area Managers – 2 Days

Introduction

It is an EASA approved organisational obligation that we remain fully compliant with all regulatory and associated organisational requirements.

As Business Area Managers we are responsible for the Quality Control and will also be in receipt of numerous audits both internal from the quality Assurance department and external from the Regulatory Authority and Customers.

The ability to communicate effectively and to analyze root causes are without doubt essential skills for business area managers is an essential element.

The purpose of this training is to identify best practice techniques and behaviours to support the interpretation of audit findings and how these can be understood, analysed and mitigated.

The delegate will consider practices to determine the root causes of identified issues. Consideration will also be given to role of the business area owner to manage process and procedures.

This course is intended to be highly practical and to help the delegate focus on the 5 elements which exist within the audit finding.

- 1/ The finding – What is the problem?
- 2/ Why is it a problem – What standard has not been met (is it internal or external)
- 3/ Why did it happen? – Here we consider Root Cause
- 4/ What is the consequence – risk or opportunity considered
- 5/ Corrective action disposition and developing mitigations – Who, What & When

The outcomes of such activities play a significant role in supporting the organization to achieve its goals to not just maintain, but to exceed regulatory compliance.

Who is the Course for?

This training is focused on the specific needs of the Managers, Nominated Persons, Business owners, Key Stakeholders, Quality Staff.

What is the Benefit of this Training – What will I learn?

To re-enforce a comprehensive understanding of the requirements for both the QA & SMS systems including an understanding of the different types of audit applicable for each area and how to identify discrepancies.

To understand methodology to determine root cause and develop appropriate responses. How to identify areas which need special attention and how to focus our efforts on making sure we have a comprehensive understanding of multiple root causes. An essential element then of benefiting from this training is to focus on the issues, how they relate in our work place, and what we need to do to address them.

Why Should I choose SAS for the training?

Sofema Aviation Services is a Regulatory Training and Consulting company with 45 years of commercial aviation experience and 10 years operational experience. Since the start we have provided certificates to approx 30,000 delegates and we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers.

The second reason is a combination of outstanding course fees, together with a world beating discount program which leaves our competitors way behind – please do not take our word for it, [check it out!](#)

What makes Aviation Quality Auditing & Root Cause Analysis for Nominated Persons and Business Area Managers – 2 Days Different ?

Because our courses are written by people who have lived through the regulations. The author of the training material has more than 25 years' experience as an auditor across the entire regulatory spectrum.

At Sofema Aviation Services our focus is on accepting that compliance with Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimisation of our business is where we should see opportunity to drive efficiencies and cost saving.
