

# Managing Approved Maintenance Programs – EASA –2 Days

## Introduction

The Maintenance Planning Function is the responsibility of the Operator and Effective Maintenance Planning Management can contribute significantly to achieving real cost savings within the organization. This training develops an awareness of the key areas which should be managed.

This training will also be of particular interest to persons who need an overview of the essential elements contributing to the effectiveness of the maintenance program. This intensive 2 Day course considers best practice processes for accomplishing the various tasks which together make up the challenging role of delivering a functioning Maintenance Program

It will also be of benefit to Quality Audit Staff and persons who normally work within the Part M CAMO environment, particularly if elements of the Maintenance Planning Process are outsourced.

## Who is the Course for?

All personnel with duties and/or responsibilities in ensuring effective oversight of the Airline Planning environment and Aircraft Maintenance Program. Competent Authority (CA) Quality Assurance Staff. Also of Interest to persons working in a CAMO or Part M Quality System. Technical Managers & Lease Companies.

## What is the Benefit of this Training – What will I learn?

- a) Have an awareness of the structure composition and impact of EASA Part M Maintenance Planning Regulations.
- b) Understanding Organisational Roles and Responsibilities Compliant with the management of the Maintenance Program.
- c) Understand the development and approval of the Aircraft Maintenance Program (AMP)
- d) Understanding the need to co-ordinate with Production Planning and availability and the control of approved data.
- e) Detailed understanding of options related to Work Planning and Scheduling.
- f) Be able to explain how the Maintenance Review Board Process (MRB) Works – MSG 3
- g) Understand the Aircraft Certification Process SSA ALI CMR & CDCCL works and how it affects the maintenance program.
- h) Have confidence in full EASA compliance and the ability to appreciate opportunity to optimise the planning process.
- i) Be able to demonstrate Part M CAMO Functionality related to Maintenance Planning and to have the knowledge to avoid or mitigate problems

## Why Should I choose SAS for the training?

Sofema Aviation Services a Regulatory training and consulting company with 45 years commercial aviation experience and 13 years operational experience. Since we started we have provided certificates to approx 30,000 delegates we have grown for 2 primary reasons!

The first is that we are professional and we listen to our customers. Please visit our [download area](#) as an example of how we engage with our customer.

The second is not only the fact that our prices are far more cost effective than our competitors it is that our [discount program](#) leaves all the others way behind – please do not take our word for it check it out!

## What Makes SAS Managing Approved Maintenance Programs – EASA– 2 Days Training Different?

Because our courses are written by people who have lived through the regulations. The author of the training material has more than 25 years' experience as an auditor across the entire regulatory spectrum.

At Sofema Aviation Services our focus is on accepting that compliance with Regulations is in fact minimum compliance. Interpreting the regulations in a way which enables the development and optimisation of our business is where we should see opportunity to drive efficiencies and cost saving.
