

EASA Continuing Airworthiness Instructor -Train the Trainer Review and Workshop – 2 Days

Introduction

The focus of this 2 day course is to identify, encourage and enhance your Classroom Instructional Skills. Learning from professionals how to define a training program, best practice methods for facilitation and presenting. Understand how to perform a Training Needs Analysis and to develop material and content. Ensuring the delivery of an active and engaging learning experience for the delegates.

This course aims to provide a comprehensive understanding of the requirement for effective training in the continuing airworthiness environment Part CAMO / Part 145 & Part 147 and considers a range of learning techniques to enable you to deliver strong and effective training. The course is intensive & highly practical, and promotes best training practices.

Extensive use is made of group exercises, case studies and feedback.

Who is the course for?

The course is primarily focused on the needs of the Continuing Airworthiness Instructor to be compliant with the obligation to complete Instructional Techniques Training.

The course will also be of interest to persons who are interested in becoming Aviation Regulatory & Technical Instructors or wishing to hone existing skills.
