

Boeing 767-200/300/400 (Any Engine) General Familiarisation (Non CAT C) Distance Learning Synchronous (DLS) Course – 5 Days

Course Overview

The Boeing 767-200/300/400 General Familiarisation course satisfies ATA 104 and EASA level 1 training objectives. The course includes a brief overview of the airframe, systems and powerplant and familiarizes the trainee with the airplane systems layout, normal functioning and operation and their major components.

At the end of the course, the participants will receive a Certificate of Course Completion.

Delivery method and requirements

This is an instructor led course, synchronously delivered via a virtual conferencing platform.

The course participants must have access to a stable internet connection and a device with audio and video camera capabilities.

Target group & Size

This course is offered to technical and non-technical individuals involved in the Boeing 767-200/300/400 maintenance planning, management, airworthiness (CAMO) and/or parts procurement and logistic. 8 participants per class.

Pre-requisites

Good command of English language as the course is delivered in English.

Duration

5 training days (30 hours, considering a training day is 6 hours of virtual classroom tuition per day).

Cost

Price available upon request.
