

# EASA Compliant Quality Assurance Review for EASA Part 147 Quality Managers and Auditors - 1 Day

## Introduction

This course is aimed at aviation training professionals managers and quality assurance auditors who are seeking to ensure a fully compliant EASA 147 type training organisation.

The training covers QA Auditing and Advanced Auditing Techniques. Root Cause Analysis and Performance Auditing Techniques specifically for EASA Part 147 Organisations.

The course delivers an in-depth understanding of the auditing techniques and behaviors it is suitable as an introduction for new auditors and a refresher for more experienced auditors.

This course is specifically designed to meet the needs of Auditors working in a Part 147 organization, written by a Quality Manager with more than 25 years practical experience gained whilst auditing within Aviation Training, Maintenance and Operations Environments.

The course also reviews the requirement for the TNA to include an analysis identifying all the areas and elements where there is a need for training as well as the associated learning objectives, considering the design philosophy of the aircraft type, the operational environment, the type of operations and the operational experience.

## Who is the course for?

- This course is aimed at aviation training professionals managers and quality assurance auditors who are seeking to ensure a fully compliant EASA 147 type training organisation.
- The course is aimed both at new entrants to EASA 147 as well as existing professionals and other stakeholders looking to polish their auditing skills.
- The training will place clear priority on the need to develop and manage a TNA for each aircraft which is covered by the organisations EASA 147 approval document.
