

# Aircraft Servicing, Cleaning, and Detailing - 2 day

## Introduction

This training is intended to be used as a cleaning, detailing and grooming guide for the maintenance of the aircraft interior and to ensure that every crew member is aware of manual handling hazards and the mechanisms in place to control them.

The cleaning operators should ensure that the techniques learnt in this training are applied in operational situations through an adequate monitoring system. Cleaning crew members must implement the techniques learnt when undertaking manual handling activities.

The cleaning crew must report to their managers any difficulties in implementing the handling techniques learnt.

## Who is the course for?

Cleaning operators and cleaning crew.

## What is the benefit of the training?

Cleaning crew members need to be adequately trained so they understand and respect the procedures that will ensure effectiveness of the cleaning and disinfecting agents, use the proper personal protective equipment, prevent contamination of other areas and minimize occupational health and safety risks to the personnel.

## Detailed Content / Topics (the following subjects will be addressed)

- Intro to Equipment, Tooling and Products
- Health & Safety – Hygiene Considerations
- Paint Treatments: Waxing, Oxidation Removal, Stain Removal
- Wood Polishing
- Metal Polishing
- Carpet Cleaning and Dry Cleaning Upholstery
- Soft Furnishing Fire Testing Requirements
- Window Cleaning
- Cockpit, Cabin, Galley and Entrance Area Sanitation
- Potable Water Management & Water Safety Plans
- Potable Water Transfer
- Lavatory Servicing
- Aircraft Exterior Washing

## Target Groups

Cleaning operators and cleaning crew.

## Pre-Requisites

A background in an aviation environment is an advantage but not essential.
