

Safety Assessment of Foreign Aircraft (SAFA) Awareness for Operators – 1 Day

Introduction

SAFA inspections of aircraft during transit and layovers in European Airports can often cause disruption to services. Sofema Aviation Services with more than 40 years experience to call on has developed a training which directly benefits the operators.

SAFA Training for Operators is a training to directly assist the Operator to understand the complete SAFA process – SAFA Safety Assessment of Foreign aircraft – SAFA Training for Operators focuses clearly on the need for airlines to fully understand the SAFA process and to mitigate the possibility of findings by introducing its own internal SAFA audit program.

In addition the SAFA Training for Operators course provided by Sofema Aviation Services is designed to ensure front line and operations staff have a full understanding of how to improve the organisational management of the SAFA Process.

How to improve your process so that your organisation can better manage the SAFA audits you receive from European regulators

SAFA Training for Operators will equip the attendee with the skills and techniques required to manage the organisations SAFA process, In addition to provide the attendees with an understanding of the need to develop appropriate internal SAFA procedures to include In company SAFA Auditing and processes to analyze and follow up SAFA findings.
