

# Safety And Compliance for Non Complex AOC and Complex ATO – 1 Day

## Introduction

EASA has created a continuous challenge with a complex set of OPS and Aircrew Regulations which continue to evolve.

Within the organisation it is essential for the Safety Management System (SMS) and Quality Management System (QMS) to ensure a full understanding of all requirements and organisation obligations, moreover to monitor and report on effective delivery.

The introduction of Regulation (EU) 965/2012 saw the formalization of requirements for Safety Management Systems within the operational environment.

This course was developed and is aimed specifically to address the needs of the Air Operators Quality & Safety Departments to implement and fully comply with all regulatory & organizational obligations.

This course may be included in the Safety Management & Quality Assurance Competency Management Program within your organisation and is suitable for both Quality and Safety Personnel as well as Nominated Post Holders and Business Area Managers.

## Who is the Course for?

All personnel with duties and/or responsibilities - Accountable Managers, Nominated Persons, Directors, Managers, Safety System Stakeholders.
