

EASA/GCAA Ground Ops Post Holder Training –2 Days

Introduction

The role of Ground Operations Post Holder is a serious and demanding role and needs to satisfy the Regulator via the EASA Form 4 process that the applicant has both appropriate background experience and competencies to support the role.

This course considers in detail the Role and Responsibilities of The Ground Operations Post holder to ensure compliance with EASA regulations.

Typical responsibilities of the Ground Operations Post Holder will of course include ensuring the company’s compliance with EASA regulations and ensuring that the company is following the required procedures.

The Ground Operations Post holder is also responsible for the management of Staff Competence and the effectiveness of the Safety Management System in the Ground Operations environment. In addition, he (or she) is responsible for the ongoing development of Operations Procedures and typically plays a major role in the event of the activation of Emergency Procedures. Additional responsibilities will extend to oversight of the general Safety and Security delivery of Standards.

What is the Benefit of this Training – What will I learn?

- a) To be able to explain the key elements required to ensure Ground Operations remains fully compliant with all EASA/GCAA and Organizational Requirements
- b) Understand the regulations which deliver the Post Holder, Including QMS & SMS Requirements
- c) To be able to explain how to deliver QC and SMS within the business area.
- d) Ability to focus on effective identification of root cause analysis and promotion of positive action.
- e) To be able to place a clear priority on best practice management within a strong quality assurance “compliance-based” system.
- f) Understand techniques to focus on the organizational issues including the relationship within the workplace and the responsibility to address issues.
