

(EC) Regulation 965/2012 & Flight Data Monitoring Review for Competent Authorities – 2 Days

Introduction

The European Aviation Safety Agency (EASA) has published the Cover Regulation along with the Implementing Rules for the conduct of Air Operations as Regulation (EC) 965/2012 dated 5 October 2012 (published on 25th October).

The Regulation lays down detailed rules for commercial air transport operations with aero planes and helicopters, including ramp inspections of aircraft of operators under the safety oversight of another State when landed at aerodromes located in the territory subject to the provisions of the Treaty.

Flight data monitoring (FDM) can be a powerful tool for an aircraft operator to improve and monitor its operational safety. National Aviation Authorities (NAAs) of EASA Member States are responsible for the oversight of their national operators including their FDM programs.

An effective Flight Data Monitoring Program enables an operator to identify, quantify, assess and address operational risks. The FDM process inherently belongs to the Safety Management System (SMS) of an airline. In addition, it can be effectively used to support analysis of a range of airworthiness and operational safety tasks.

This training is specifically focused on the key oversight responsibilities of EASA

Who is the course for?

Civil aviation and Aero-medical and Airport authorities staff, Ground Operations Personnel

International organizations operations personnel. Compliance and Safety management. Airline Nominated Persons, Other related Key personnel & Stakeholders.

What is the Benefit of this Training – What will I learn?

- a) a) Identify effective oversight and audit techniques related to EASA Air Operation
- b) Regulation 965 and Amendments
- c) b) How to Assess Effective Flight Data Monitoring Program Implementation
- d) c) Review of best practice auditing of Safety Management Systems
- e) d) Familiarization with the relationship and roles related to aviation within the jurisdiction
- f) of EASA and the Member States.

Detailed Content / Topics - The following Subjects will be addressed

The training outlines the overall regulatory framework of EASA – European Aviation Safety Agency and reviews the Civil Aviation regulatory evolution leading up to the introduction of Part OPS.

- General Introduction
- Update & Notes
- Regulations on Air Operators Part ARO review
- EASA Basic Regulation (EU) 2018/1139
- Regulatory oversight of the Management System requirements of Part OPS
- Effective auditing SMS In an Operations Environment
- How we Measure and Categorize Risk
- Considering Part M & EASA "OPS" Interfaces
- Considering Part ORO Subpart FTL
- Part ORO, Part CAT & Part-SPA - Regulatory Review & Oversight Issues
- Part-NCC, Part-NCO & Part SPO Regulatory Review & Oversight Issues
- FDM Regulatory Requirements
- Flight Data Monitoring (FDM) Gap Analysis
- Implementing FOQA /FDM Program
- Flight Data Analysis Equipment Requirements
- FDM Roles and Responsibilities within the AOC
- Developing FDM Procedures
- Effective FDM Oversight and Compliance Auditing

Target groups

Civil aviation and Aero-medical and Airport authorities staff, Ground Operations Personnel International organizations operations personnel. Compliance and Safety management. Airline Nominated Persons, Other related Key personnel & Stakeholders.

Learning Objectives

To familiarize Regulatory Authority Personnel and other Operational and Concerned Personnel with a detailed understanding of best practice oversight process appropriate to EASA Part OPS Structure and Environment. Detailed awareness of Flight Data Monitoring Program process and procedures.

What do People Say about Sofema Aviation Services Training?

"I found satisfying answers to all my questions."
"The instructor demonstrated very deep knowledge of the subject."
"The length of the course fit my needs and expectations."
"The content was really effective, I gained a lot of new knowledge."
"The practical examples were perfectly delivered."

Duration

2 days – Start at 09.00 and finish at 17.00, with appropriate refreshment breaks.
