

# EASA Aviation & Airworthiness Regulations for Managers – 3 Days

## Introduction

This course is focused on the needs of the aviation manager to provide an in-depth appreciation and understanding of the structure and implementation of the EASA regulatory environment. The delegate will cover all foundation subjects including the International Civil Aviation Organisation (ICAO) & Joint Aviation Authorities JAA leading to an understanding of current European Safety Agency (EASA) regulations.

The focus is on Continuing Airworthiness Part M, Part 145, Part 147 & Part 66 but consideration is also given in respect of continuing Airworthiness Part 21 Subpart J Design Organisation Approval (DOA) and Part 21 Subpart G Production Organisation Approval. In addition, the course includes an introduction to EASA regulations 1178/2011 for Aircrew and 965/2012 for Airline operations.

Roles and responsibilities are considered in respect of Quality Assurance, Quality Control, and Safety Management Systems in particular the responsibility of the senior managers and “Post holders” – Nominated Persons.

The Delegate will also consider the current threats to the Aviation System and the occurrence of reporting obligations and the relationship with Human Factor behaviours.

## Who is the course for?

The course will be of particular interest to Maintenance Training Managers, Quality Assurance Managers, Accountable Managers, and Form 4 Post Holders.

This 5-day intensive course is specifically designed for leasing companies and persons who need to have a comprehensive understanding of the EASA regulatory environment.

It will also be of benefit to legal representatives who need to have an effective understanding as well as to serve as a refresher to any Operators and Maintenance Organisations, MRO (Maintenance, Repair, and Overhaul) approval holders.

## What is the Benefit of this Training – What will I learn?

The EASA Aviation & Airworthiness Regulations for Managers training program can provide aviation managers with the knowledge and skills needed to operate in a complex and highly regulated environment, ultimately leading to improved safety, efficiency, and compliance.

## Learning Objectives

This course aims to provide a thorough and comprehensive understanding of the roles and responsibilities of the Aviation Accountable Manager and other Managers and Nominated Persons.

To prepare Aviation Professionals for the regulatory obligations of Senior Managers and Accountable Persons.

To understand the role of Part 66/147. To give delegates a thorough understanding of Initial and Continuing Airworthiness.

Promote the delegates understanding concerning both airworthiness and maintenance principles.

## Target Groups

Nominated or designated Accountable Managers;

Post Holders and Nominated persons;

Quality Assurance Auditors;

CAA Inspectors;

Quality Audit Staff and persons who normally work within the Part M Environment.

## Pre-requisites

A broad range of aviation exposures will typically be found in attendees to this training. The course is highly practical and significant and active participation will be expected. A background in an aviation environment is an advantage although not essential.

## What do People Say about Sofema Aviation Services Training?

*"I found satisfying answers to all my questions."*

*"The instructor demonstrated very deep knowledge of the subject."*

*"The length of the course fit my needs and expectations."*

*"The content was really effective, I gained a lot of new knowledge."*

*"The practical examples were perfectly delivered."*

## Duration

3 days – Start at 09.00 and finish at 17.00, with appropriate refreshment breaks.
