

EASA Part CAMO - Maintenance Program Effectiveness – 1 Day

Introduction

Maintenance has come a long way since the early days of commercial aviation when maintenance programs owed more to the perception of the maintenance needs, as opposed to the analyzed and justified needs.

Our mission is to share that the role of Maintenance Planning has the potential to provide significant savings whilst maintaining a fully compliant and safety-focused maintenance management system.

From the regulatory perspective, it is of primary importance to deliver effective oversight of aircraft operators’ maintenance programs. Together with a viable assessment of the management of the continuing airworthiness process.

The course is focused on the specific needs of persons (Competent Authority & Industry) who are required to audit the AMP process. The training is delivered in a stimulating and dynamic environment, with a heavy focus on the practical aspects of an effective and efficient Maintenance Planning Process.

The course is delivered by industry practitioners with many years of real and relevant experience.

What is the Benefit of this Training – What will I learn?

- a) At the end of this Training the delegate should have a comprehensive understanding of the Roles and responsibilities associated with the development of the Aircraft Maintenance Program. (AMP)
- b) To be able to effectively assess both the regulatory compliance and suitability of operators’ Maintenance Programmes.
- c) Achieve a solid understanding related to EASA Part CAMO Continued Airworthiness Management (CAM) and the Continuing Airworthiness Organisation (CAMO) management of the AMP
- d) Be able to use the regulation to proactively manage the oversight of regulatory compliance related to the AMP and its control processes
- e) Understand the activities which support the analysis of Safety Data including SBs and ADs
- f) Understand the impact of the various elements on the AMP with the ability to assess exposure and viability and identify potential weaknesses within the system.

Who is the course for?

All personnel with duties and/or responsibilities in ensuring effective oversight of the Airline Planning environment and Aircraft Maintenance Program. Competent Authority (CA) Quality Assurance Staff. Also of Interest to persons working in a CAMO or Part M Quality System. Technical Managers & Lease Companies.

Detailed Content / Topics - The following Subjects will be addressed

Introduction

Abbreviations & Definitions

Overview of EASA Part-M & Part CAMO requirements regarding "effectiveness of the maintenance program"

EASA Compliant Aircraft Maintenance Program - Review of Critical Items

The role of MSG3 related to Aircraft Certification

Airworthiness Limitations & Certification Maintenance Tasks

Understanding & Using Maintenance Planning Documentation: MRB & MPD

The Aircraft Maintenance Program AMP Introduction

The Aircraft Maintenance Program Management & Development

Learning Objectives

- To provide a detailed grounding of the Regulatory environment to understand terms, their meanings, and relationship
- To share the importance of technical records and the importance of the highest standards in managing technical records
- To share best practice processes and procedures

Target Groups

This course is suitable for CAMO Staff, wishing to develop an in-depth understanding of Certification and Technical Records with particular relevance for Technical Records Staff. It is also suitable for other stakeholders (including Quality Assurance Staff) who are looking for a detailed understanding of the role of technical records.

Pre-requisites

A background in an aviation environment is an advantage but not essential.

What do People Say about Sofema Aviation Services Training?

"I found satisfying answers to all my questions."
"The instructor demonstrated very deep knowledge of the subject."
"The length of the course fit my needs and expectations."
"The content was really effective, I gained a lot of new knowledge."
"The practical examples were perfectly delivered."

Duration

1 day – Start at 09.00 and finish at 17.00, with appropriate refreshment breaks.
