

Executive Review EASA Part 145, Part M (Large Aircraft) & Part 66 – 1 ½ Day

Introduction

This training has been developed to cover critical understanding by executives of EASA Part M, Part 145, and Part 66 with the intention of introducing the delegate to the role of EASA Continuing Airworthiness Related to EASA Part M, Part 145 & Part 66. The European Aviation Safety Agency (EASA) is responsible for the regulations which govern the maintenance performed on aircraft which are used for Commercial Air Transport throughout the European Community and this course is delivered as an overview course for senior managers providing a general overview of the major parts of EASA Part 145, EASA Part M & EASA Part 66. The course provides a thorough understanding of the Role of Part 145 in all jurisdictions managed by an EASA Regulatory environment and provides a general overview of the major parts of EASA Part 145. Promote understanding concerning both airworthiness and maintenance principles to understand the process of Management and Certification of Commercial Aircraft. To understand the European Aircraft Maintenance Engineers EASA Part 66 License System and to consider the basic license structure together with the various categories A, B1, B2, B3 & C.

What is the Benefit of this Training – What will I learn?

- a) Awareness of the structural composition and impact of Key Elements of Regulation 1321 / 2014 Regulation
- b) Understanding Organisational Roles and Responsibilities across the CAMO and AMO
- c) Understand the environment driving EASA Part 145 & EASA Part M to focus your business decision process
- d) Have confidence in full compliance and the ability to perceive opportunities to optimise
- e) Confidence in detailed knowledge of the key components of EASA 1321 / 2014
- f) A detailed understanding of the Part M / PART 145 Quality System – The difference between QA & QC Roles and responsibilities
- g) To understand the European Aircraft Maintenance Engineers EASA Part 66 A, B1, B2, B3 & C License System.
