

GCAA Combined CAR M / CAR 145 Post holder Intensive – 2 Days

Introduction

An industry-specific two-day program specifically designed for the nominated or designated potholder Maintenance System of a GCAA 145 Organization.

The Maintenance Post Holder is directly responsible for Quality Control together with the effectiveness of the Safety Management System. This course also considers in detail the Role and Responsibilities of Continuing Airworthiness managers. Typical responsibilities include ensuring the company's compliance with the approved maintenance program GCAA regulations and adherence to company-required procedures.

Additionally, the Potholder Maintenance and CAR M Post Holder are responsible for a wide range of safety-critical processes.

This in-depth course provides detailed practical training in management obligations and methodologies to ensure effective and efficient maintenance and CAR M organization.

The course is highly participative and promotes industry best practices as standard, it is delivered in a confidential environment by an industry professional with over 40 years of Commercial Aviation experience.

Aviation Authorities may choose to interview Form 4 candidates. All relevant areas are covered during the course.

What is the Benefit of this Training – What will I learn?

- a) How to effectively apply the regulations and concepts to your organization's maintenance operations.
- b) How to maintain compliance with the GCAA CAR M and CAR 145 regulations.
- c) The course will also include practical exercises and case studies to help you apply what you have learned to real-world scenarios.
- d) Receive a comprehensive understanding of the regulatory framework and the knowledge and skills needed to manage and oversee aircraft maintenance operations in accordance with GCAA regulations.
