

# UAE GCAA CAR M – 3 Days - Initial

## Introduction

The primary purpose of this training is to provide a thorough understanding of the Role of CAR M in all jurisdictions managed by an GCAA Regulatory environment. To introduce delegates to the working of the CAR M Regulatory Structure and to enable a full understanding of the operator’s responsibilities, Contracted arrangements, Subpart G responsibilities.

The Training focuses on the Operators specific responsibilities, In particular the role of Contract and Subcontract organisations.

The training is very practical with numerous examples, which are intended to give a practical perspective of how to apply the knowledge that they gain in the workplace and to satisfy the needs of the Accountable Manager responsible for UAE Operators, Maintenance Post Holders, Quality Managers and CAR 145 maintenance organisations wishing to gain CAR M Subpart G approval.

## Who is the course for?

The course is primarily designed for individuals who are involved in the maintenance of aircraft registered in the United Arab Emirates (UAE) or who are seeking to obtain an Aircraft Maintenance Engineer (AME) license in the UAE. This includes maintenance technicians, engineers, quality assurance personnel, and maintenance managers who are responsible for planning, supervising, or carrying out maintenance tasks on UAE-registered aircraft.

## What is the Benefit of this Training – What will I learn?

The primary purpose of this training is to provide a thorough understanding of the Role of CAR M in all jurisdictions managed by an GCAA Regulatory environment.

In Particular the role of Contract and Subcontract organisations, to include the responsibilities of the CAR M Organisation to the Operator.
