

## **EASA Part 145 EU 2021/1963 Overview – 1 Day**

### **Introduction**

EASA Part 145 is one of the most mature regulations with its European origins going back some 20 plus years to the introduction of the harmonized FAA / JAA regulation.

Our Training courses are focused on the practical delivery of a specific understanding of the regulation which allows the organization to ensure compliance to the regulation whilst at the same time developing optimized organisational processes.

The Aims of this course which is compliant with EU 2021/1963 is to provide delegates a detailed overview of EASA Part 145 regulation. The training includes many practical examples of Part 145 Implementation and how to avoid potential problems.

Understanding regulations driving the 145 process enables you to make the best business decisions and to ensure compliance.

### **What is the Benefit of this Training – What will I learn?**

- a) It will help organisations comply with the requirements of EASA Part 145, which is essential for ensuring the safety and airworthiness of aircraft.
- b) Learn what the new changes introduced with Regulation 2021/1963 are.
- c) Have an improved understanding of the regulatory framework.
- d) Improve safety by understanding the requirements of EASA Part 145. This way individuals and organizations can implement effective safety management systems and processes, which help reduce the risk of accidents and incidents.

## Who is the course for

The course is made for individuals who work in the aviation industry and organisations involved with the maintenance, repair, and overhaul (MRO) of aircraft and aircraft components and are subject to European Aviation Safety Agency (EASA) regulations.

This may include technicians, mechanics, engineers, quality managers, auditors, and other personnel who work in maintenance organizations or in other aviation-related organizations

## Learning Objectives

The primary purpose of this training is to provide an overview of the Role of Part-145 in all jurisdictions managed by an EASA Regulatory environment.

To provide a general overview of all parts of EASA Part-145 and to include the responsibilities of the Part-145 Organisation to the Part-M Organisation.

## Detailed Content / Topics - The following Subjects will be addressed

- Regulatory Framework
- Review of EASA Part 145 Major Changes Introduced with Regulation 2021\_1963
- Understanding the Nature of Risk within the Part 145 Organisation
- Considering the Primary Challenges Related to the Implementation of SMS
- Contract & Subcontract Management
- Managing Competencies in a Part-145 Environment
