

GCAA CAR 145 Essentials - 1 Day

Introduction

CAR 145 training is a one-day training covering in depth all aspects of the CAR 145 regulatory environment. The focus of the course is intended to provide delegates with a thorough understanding of CAR 145 and to help them understand how to apply the regulations and requirements in a practical way within their respective company.

The training is specifically focused on the need for all CAR 145 stakeholders whether focused on Operator issues Aircraft Maintenance Organization) and Regulatory Staff. In addition, it will provide support for Post Holders and persons required to implement CAR 145 within their organization.

The following are considered in detail – Implementing Rules, (IR) Acceptable Means of Compliance (AMC), and Guidance Material are covered in detail. All SAS Training courses are focused on the practical elements of implementation.

Delegates will understand the roles and responsibilities regarding the interface with the relevant “CAR M” organization, and how this should be described in the relevant procedures and joint procedures.

Written by an Industry professional with more than 40 years of relevant experience. All SAS courses are extremely practical and focus beyond simple compliance with the regulation of Part 145/CAR 145 Organisation to the Part M/CAR M Organisation.

Understanding the regulations driving the 145 processes enables you to make the best business decisions and ensure compliance.

Who is the course for?

The course is designed for personnel who are involved in the maintenance, repair, and overhaul (MRO) of aircraft and aircraft components. This includes maintenance personnel, quality assurance personnel, and other technical staff who work for maintenance organizations, including Part 145-approved organizations, in the United Arab Emirates (UAE).
