

## Aircraft Loading Supervision – 3 Days

### Introduction

Aircraft Loading Supervision training provides a detailed overview and a wide range of associated subjects and provides the tools required to successfully supervise the loading of any aircraft. This type, of course, is suitable for existing loading staff who may require additional knowledge or those less experienced who aspire to the supervision role. This course is designed to be compliant with the requirements of IATA AHM 611 and other applicable standards.

The loading of an aircraft is a key and vital safety activity for an airline. With it comes pressure, time constraints, and legal accountability, all of which require a broad knowledge base, situational awareness, and team management.

### Who is the course for?

Loading Supervisors, Team Leaders, Crew Chiefs, and those responsible for loading aircraft at the GSP or self-handled airlines.

### What is the Benefit of this Training – What will I learn?

To provide participants with a detailed understanding and the skills to safely and efficiently load an aircraft and associated requirements.
