

## **Dangerous Goods Training Program – Category 1 Initial (with area of concentration – Transport of lithium batteries) – 3 Days**

### Introduction

Dangerous goods are commodities that can be dangerous in specific circumstances. These materials may be transported by air only if suitable precautions are taken. Dangerous goods consist not only of obvious substances such as corrosive, explosives and flammables but also include less apparent articles like devices containing lithium batteries and spare batteries.

To ensure the safe transport of dangerous goods by air there are internationally agreed rules, published by the International Civil Aviation Organisation (ICAO) named Technical Instructions for the Safe Transport of Dangerous Goods by Air.

The International Air Transport Association (IATA) annually publishes Dangerous Goods Regulations which are fully compliant with the latest edition of ICAO TI and based on Annex 18 to the Chicago Convention on International Civil Aviation.

This training is based on the latest edition of IATA DGR and it's designed for the shippers (Category 1 from the IATA Dangerous Goods Regulations Table 1.5.A). The training also gives students a full understanding of the packing, labelling and documentation of Lithium Batteries. Recurrent training must take place within 24 months of previous training to ensure knowledge is current.

## Detailed Content / Topics – The following Subjects will be addressed

- General philosophy
- Limitations
- General Requirements for shippers
- Classification
- Identification
- Packing Requirements
- Specifications
- Marking and labeling
- Shipper Declaration and Documentation
- Recognition of undeclared Dangerous Goods
- Provisions for Passengers
- Lithium Batteries Classification and Identification
- Lithium Batteries Packing Instructions
- Lithium Batteries Marking and Labeling
- Documentation of Lithium Batteries

## Target groups

This training is based at latest edition of IATA DGR and it's designed for the Shippers (Category 1 from the IATA Dangerous Goods Regulations Table 1.5.A).

## Pre-requisites

Working knowledge of the English language is required. As well as basic principles of transport of cargo by air. Possession of the latest edition of IATA DGR is a must.

## Learning Objectives

After successful completion of this training the student will be able to:

- apply the IATA Dangerous Goods Regulations correctly;
- apply the legal aspects involved;
- identify dangerous goods;
- navigate through the List of Dangerous Goods;
- understand the packing requirements and packing instructions;
- properly mark and label a dangerous goods packages;
- correctly complete Shipper's Declaration for Dangerous Goods and appropriate Airwaybil;
- follow general emergency procedures when a damaged or leaking package is discovered.
- Define lithium batteries
- Classify and determine proper shipping names and UN numbers of Lithium Batteries
- Correctly pack, mark and label shipments containing lithium Batteries
- Properly complete required documentation

## What do People Say about Sofema Aviation Services Training?

*"The instructor used the right words to explain the material."*  
*"The discussions among the group were very beneficial."*  
*"The instructor showed very resourceful background and experience."*  
*"All sections of the course were related to my field."*  
*"Adequate answers were given to specific questions."*

## Duration

3 Days – To commence at 09.00 and finish at 17.00, with appropriate refreshment breaks.
