

EASA Part M Overview & Recurrent - 1 Day

Introduction

The aim of the course is to give delegates a recurrent understanding of the operator's responsibilities, contracted arrangements, and Subpart J and Subpart I responsibilities.

Who is the course for?

The course is made for professionals who are involved in the maintenance management of aircraft. This course is aimed at individuals who work in organizations regulated by the European Union Aviation Safety Agency (EASA)

What is the Benefit of this Training – What will I learn?

- a) Achieve a solid understanding related to Subpart G Continued Airworthiness Management (CAM) and Subpart I Airworthiness Review Certificates (ARC)
- b) Be able to demonstrate Part M Functionality and avoid or mitigate problems
- c) Appreciate the difference between Full ARCs and Reviews
- d) A detailed understanding of the PART M Quality System –The difference between QA & QC Roles and responsibilities
- e) Be able to use the regulation to proactively manage the Continuing Airworthiness (CA) of your aircraft.
- f) Understand the activities which support the analysis of Safety Data including SBs and ADs
- g) Understand the purpose of STCs and how they are integrated into the maintenance Program
- h) Understand the roles and responsibilities within the various CAMO groups including Reliability, Technical Records, Engineering, & Maintenance Planning
