

Managing Quality Assurance & Compliance within a 147 Organisation – 1 Day

Introduction

The role of Managing Quality in an EASA 147 organization brings with it a number of unique challenges as well as the role of the independent audit there are also a number of activities that may be considered under the umbrella of "Quality Control".

This one-day training focuses on the roles and responsibilities of a Quality Manager within an EASA Part 147 Maintenance Training Organisation (MTO).

The training assumes a basic understanding and knowledge of EASA Compliant Quality Control and Quality Assurance principles.

Who is the course for?

The course is for individuals involved in the development and management of maintenance training organizations within the aviation industry. It aims to provide them with comprehensive knowledge and guidance on creating a Maintenance Training Organization Exposition (MTOE) in accordance with regulatory requirements.

What is the Benefit of this Training – What will I learn?

The participants will gain an understanding of quality assurance principles and compliance requirements specific to organizations operating under the 147 certification. The training will cover topics such as developing quality management systems, implementing compliance procedures, and ensuring adherence to regulatory standards within the aviation industry.
